## experience

### UX/UI Designer, DevProgress

October 2016 – Present

- Lead UX/UI designer for website IfIHadAQuarter.com.
- Designed and wireframed user interface and user experience flow.

### Game Development Intern, DoSomething.org

June 2015 – July 2016

- Designed and developed online games for international non-profit using JavaScript, HTML, and CSS, dramatically increasing user engagement.
- Developed game released on a company page that receives over 10,000 views each month, increasing campaign click-throughs by over 540%.
- Pitched global game strategy to company and C-Suite executives, rebranding SMS efforts and defining digital gaming product cycle.

### Co-Curricular Director, UChicago FEMMES

November 2014 – Present

- Lead the development of 8-week Python workshop for underprivileged middle school girls.
- Direct the design of hands-on curricular modules illustrating aspects of computer science for annual capstone day hosting 140 girls.
- Developed internal infrastructure for the organization; defined roles, charted communication flow, and divided work into new departments.

## notable wins + projects

### disorientation.info, UChicago DisOrientation 2016

September 2016

Website information hub for 200 student organizers and 1000 first year students. Optimized for mobile for quick access to online schedule of events.

### Words That Matter, DoSomething.org

June 2015 – May 2016

Spearheaded, researched, designed, developed, and user tested online game demo to educate young people about the unhealthy relationships and equip them with techniques to safely and effectively intervene.

### Redesigning Career Services, MENG 25000

March 2015 – June 2015

Proposed a redesign of the University of Chicago Career Advancement department to emphasize career exploration and building of practical skills. When pitched to the class, over 90% voted to fund our product.

## awards

### Lesbians Who Tech Summit Scholarship, 2016

### Anita Borg Institute Grace Hopper Scholar, 2014 & 2016
